friend Mary Welsh to visit Edm^d. See those of the
County there whom she knows to be sound & have
them decide that if the Amⁿ Socy is to be thrown
over, that then they will themselves labour only
for the Amⁿ Socy. - I think you had better mean-
time not notice this report publicly, until it can
be learnt what the Wighams intend to do.
You will perhaps recollect that Jane W^m's sister
to W^m Samuel & step mother to Henry & Eliza, it
was most shabby conduct to get W^m & Ellen
Craft to give interest to ^a meeting which had
taken such a position with regard to you.

Summington has not yet replied to the
letter of W^m Samuel & myself enquiring after the pro-
posal to raise money to buy him, we have writ-
ten him again & he must say something immediate-
ly which I will communicate - he called on me
a week ago & told me a very improbable story
but which it is needless to relate here - no doubt
he wishes to get off answering us on black & white

considerable minority had forwarded contributions
as before - this is the more strange from the ex-
pressions of regret that ~~Eliza~~^{Edmund} Wigham has used
when she has been stating to me & others that altho'
the Socy as such were not sending this season,
yet that herself & some would send contributions -

I then you will see that the report recommends
for their support the ensuing year, the free
labour movement, fugitives in Canada &c,
not a word of the Amⁿ Assocⁿ - the
Quakers are in many respects a strange
set, & beyond being fathomed in their motives
& conduct - my opinion is, that this move-
is produced at the instigation of Anna
H. Richardson of New Castle who is related
to the Wighams - at least to the Wighams of
18 Salisbury Road, & they to the other Wighams of
St. Gray St. - I will endeavour to get our Stannels

My dear friend

I wrote you by last steamer, & today got a copy of the Report of the Edinburgh Ladies' Assocⁿ for last year, which is sent you by this mail, but it should not have been sent you otherwise - I am greatly grieved to see the terms in which their proceedings regarding the withholding contributions from the Boston Bazaar are narrated - they are in my opinion very offensive & could scarcely be more so were they expressly framed for the purpose of strengthening the New Socy here - the writer I have no doubt is Henry Eliza, or Jane Wigham, as there is no mistaking the Quaker style in which they are written; "Shippings" &c, for instance, it is certainly very strange that they could not state the bare truth, that tho' a majority of the Committee withheld contributions, yet that a
